This 3-hour workshop has been requested by supervisors and employees who provide outreach mental health services in the field. This training will address effective safety principles while working in the field. The target audience includes clinicians, case managers, Psychiatric Mobile Response Team (PMRT), Emergency Outreach Bureau (EOB), Full Service Partnership (FSP), Field Capable Clinical Services (FCCS), DMH Co-located Programs, Cold Weather Program, CalWORKs personnel and staff who make home visits. Personnel identified above will be given the highest priority to attend this training program. However, applications will be accepted from all DMH and contract agency providers. **Seating is limited to 50 participants so early applications are encouraged.**

TARGET AUDIENCE: ***Mandatory for Clinicians, Case Managers, and Outreach Staff Working in the Field.**

OBJECTIVES: As a result of attending this training, participants should be able to:

1. Identify the elements of a dangerous situation, and/or individual(s) who may be at risk of becoming violent
2. Evaluate the level of dangerousness
3. Clarify their clinical/professional responsibility in dangerous situations
4. Implement the appropriate clinical response/action in the field
5. Identify those instances which require the initiation of a Security Incident Report (SIR)
6. Provide appropriate follow-up interventions for at-risk individuals
